THE SOHO COLLECTION

SOHO

A DESIGN TO INSPIRE...

Soho in Manhattan is a place of artistic expression and historic architecture.

The neighbourhood – famed for creativity, culture and imagination – has offered the perfect design inspiration for Origin to craft exceptionally stunning door and window systems that offer an unbeatable performance and accommodate today's way of living.

The Soho Collection - incorporating steel-style External and Internal Doors and Windows - therefore encapsulates the essence of one of the most iconic districts in the world and is synonymous with style and sophistication.

THE SOHO COLLECTION EPITOMISED

The Soho Collection epitomises desirability and style. Handcrafted with meticulous attention to detail, the Collection redefines the standards of elegance, allowing it to make a bold statement in any architectural setting.

Comprised of External and Internal Doors and Windows, the Collection's ethos is all about balancing a stunning industrial design with unparalleled levels of performance. This combination ensures your home gets it all - expansive glass panels for maximum light, optimal thermal efficiency, elite levels of security and remarkable aesthetics.

Engineered to perform flawlessly for decades to come, our aluminium is only of the highest-grade. It is not only strong, secure, and stunning, but is also able to accommodate large complex layouts and configurations.

SECURITY

BEYOND EXPECTATIONS

Both the Soho External Door and Window comply and exceed all required security accreditations, including PAS 24.

In addition to security being an integral design priority for our in-house Research and Development team, safety also plays a pivotal role. Finger safe gaskets, magnetic catches and optional door restrictors are all offered to keep the family out of harm's way.

STEEL-STYLE MEETS

THERMAL EFFICIENCY

Given products connect your world to the natural one outside, we want to do all that we can to protect both spaces, for current and future generations. The Soho Collection has been engineered with unparalleled thermal efficiency to help minimise your energy bills. With unrivalled thermal performance far exceeding British Building Regulation requirements, the Soho Collection can achieve U-Values as low as 0.78 W/m^2K.

THE

EXTERNAL DOOR

Precision made to your vision, you can specify every single detail of the Soho External Door, but there are some things that are non-negotiable: a sightline from just 36mm, exceptional security and striking visual appeal.

Origin products are curated to work harmoniously and create an integrated look throughout your home, whilst connecting your indoor and outdoor surroundings seamlessly.

SINGLE | FRENCH | BI-FOLD

THE

INTERNAL DOOR

Expertly crafted to your precise specifications, the Soho Internal Door offers unmatched customisation. Featuring a refined 30mm sightline, it's designed to transform your living area and make better use of your home's footprint.

This steel-style door and window system encourages light to flow throughout your home, whilst elegantly breaking up spaces and creating functional areas.

THE WINDOW

The Soho Window brings a sleek, steel-style design to your home. With an external flush casement and slim sightlines, every view is framed with industrial elegance.

Its design features carefully crafted detailing and square beading for an authentic and sophisticated appearance.

TAILORED

JUST FOR YOU

The Soho Collection is precision made to your requirements. Once you've decided Origin is the right choice for your home, head over to origin-global.com to find your local Installation Partner who will talk through all of the available options and bring your vision to life.

LIMITLESS

HUES, UNRIVALLED FINISH

Every aspect – from start to finish – is undertaken by us in our state-of-the-art facility here in the UK. Not only will we use the highest-grade aluminium to craft your frames, but we also powdercoat them in-house too. Using a 10-stage pre-treatment cleaning process (the industry standard is between 5-7), we ensure the frame's surface is smooth and primed before applying your chosen colour and finish. It's a difference you can see and feel, and you won't get that anywhere else.

With over 150 different RAL colours to choose from, including textured and dual-coloured options, we have a colour palette that's guaranteed to inspire.

HARDWARE

AS EXCLUSIVE AS THE COLLECTION ITSELF

Solid yet delicate to touch, reassuring yet seamless to operate, the quality of the handle can be seen, felt and heard every time it's engaged with.

Complementary in style, the handles are the perfect finishing touch and will make an elegant design statement in any setting.

INNATE STRENGTH

INSIDE YOUR HOME

It would not be possible to create slimline steel-look glazed systems with anything other than the highest-grade aluminium.

Weighing 67% less than steel, its innate strength supports large expanses of glass for maximised views. It's the combined quality, strength and dependability that aluminium brings that allows Origin to provide such long guarantees.

Additionally, while we deliver on style, aesthetics, and performance, we cannot forget our responsibility to the environment.

We are constantly reviewing and refining our processes to ensure that we are doing things in the right way, and that customers can buy from us with a clear conscience. ISO 14001 gives you the reassurance that we are acting ethically, legally, are environmentally aware and exercise best practice in all that we do.
